

# How do I pay for home health?

Medicare and/or Medicaid will cover the cost of in-home healthcare services for those patients over the age of 65 who meet either program's eligibility requirements. Private insurance companies, managed-care organizations, and workers' compensation plans may also pay for in-home healthcare services.

U.S. veterans in the VA program living with a complex, chronic, or disabling disease with a short-term need for skilled services or assistance with daily living activities may qualify for in-home healthcare benefits. Learn more at the United States Department of Veterans Affairs website at [va.gov](http://va.gov).

**Contact your local provider today for more information.**
