

# What are the benefits of long-term acute care?

Long-term acute care facilities specialize in treating medically complex needs and conditions. You can trust that a comprehensive treatment plan will be designed for you or your loved one.

Our facility offers a safe, seamless transition from physician offices, the emergency department, skilled nursing facilities and/or home health directly to our long-term acute care hospital. Our streamlined direct admission process helps ensure continuity of care.

Our caring medical professionals are committed and passionate about delivering high-quality care to every patient, every time. Our proven clinical results reflect that commitment.

We treat a wide range of complex medical illnesses, including the following:

- Cardiovascular disorders
- Infectious diseases
- Respiratory conditions
- Neuromuscular diseases
- Neurological disorders
- Hematological disorders
- Renal disease
- Diabetes management
- Post-surgical recovery
